

Hi [Manager's name],

I've identified a way that we can fast-track our application development efforts.

There is an upcoming learning and growth opportunity I would like to discuss—it's the Autodesk Platform Services Accelerator. This is a week-long 1:1 training event that will enable us to expedite the development of our Autodesk applications that will improve our team's workflows. In this event, I will be able to work side-by-side with Autodesk Platform Services experts. This dedicated support leaves most companies with an advanced application or proof of concept.

The event is free – the only cost is any travel and accommodation.

The event is on _____ and is located in _____.

Let me know your thoughts and let's talk in our next touch base.

Thanks,

[Your Name]
